

Linguolink - Demo Terms of Service

These Terms of Service ("Terms") are provided for demonstration purposes only and do not represent a legally binding document. Linguolink ("the Service") is operated by an independent developer ("the Developer"). By accessing or using the Service, you agree to these Terms.

1. Description of Service

Linguolink is a localization management platform designed for teams and organizations to manage translation keys, files, and workflows efficiently. The Service is offered on a subscription basis through Stripe, with plans varying based on usage.

2. User Accounts

Teams are responsible for maintaining the confidentiality of their account credentials. The Service may use Clerk for authentication and user management. Users agree to provide accurate and complete information during registration.

3. Billing and Payments

Payments are processed through Stripe. Pricing follows a usage-based model, starting at \$30 per month and scaling up to \$450, depending on usage. No refunds will be issued for completed billing cycles. Demo accounts may not incur real charges.

4. Data Storage and Security

All data, including localization keys and files, are stored securely using third-party cloud services (Vercel, Neon DB). The Developer takes reasonable steps to protect your data but makes no warranties regarding uninterrupted or error-free operation.

5. Limitation of Liability

The Service is provided "as is," without warranty of any kind. The Developer is not liable for any damages resulting from the use or inability to use the Service.

6. Changes to Terms

The Developer reserves the right to modify or discontinue the Service or these Terms at any time, without prior notice.
